

## Iso-Mont (Isotretinoin) 20mg Capsule

Acne Free  
Glow

Iso-Mont

### Iso-Mont SOFT GEL IS BEST SUITABLE WHERE CONVENTIONAL REGIMEN FAIL TO RESPOND

Nodulocystic acne

Fulminant acne

Acne corporis

Difficult/recalcitrant acne

Moderate acne if scarring is imminent

Acne associated with psychologic distress

### MECHANISM OF ACTION

- ✓ Eliminates P. acnes from pilosebaceous units.
- ✓ Exhibits anti-inflammatory effects.
- ✓ Reduces sebum to control acne.
- ✓ Prevents clogged pores by reducing keratinization.

### KEY FEATURES

- ✓ Covers all the four pathogenic factors of acne
- ✓ Provides faster relief
- ✓ Brings back the normal function of Pilosebaceous units
- ✓ Reduces the chances of reoccurrence
- ✓ Ensures best quality with economy

### DOSAGE:

The dose of isotretinoin is 0.5-1.0 mg/kg body weight, in two divided doses given after meals.

Isotretinoin absorption is only 20% in fasting state versus 40% in the fed state.

The treatment is continued till a cumulative dose of 120 mg/kg has been achieved.

This typically may take 6-8 months.

### WARNING:

Iso-Mont is teratogenic and causes birth defects. Iso-Mont should not be used during pregnancy or who may plan pregnancy. Before prescribing please see complete pregnancy warning in the accompanying product information.
